

CAFS Force

The only automatic CAFS nozzle

- The ONLY automatic nozzle combination designed specifically for :
 - Compressed Air Foam (CAFS)
 - Water applications.
- CAFS-Force is engineered to provide **optimal foam stream performance**, as well as offering low pressure nozzle operations when using water alone.
- Automatic **dual-pressure control** nozzle :
 - 3 bar for CAFS
 - 6 bar for water application
- Lance en 2 parties **rapidement déconnectables**.
- Two pieces nozzle ; use the valve as a **smooth bore** with any of the 4 sizes of smooth bore inserts (7/8" = 22 mm, 15/16" = 24 mm, 1" = 25 mm and 1 1/8" = 28 mm)

Water mode

CAFS mode

- Engineered to provide **optimal foam stream performance**
- Automatic **dual-pressure control** nozzle
- Disconnected quickly in 2 pieces

Designation	Reference	Inlet	Water flow
CAFS-Force 1	CAFS-PACK21	DSP40 (1.5" BSP F)	265 à 750 l/min
CAFS-Force 2	CAFS-PACK22	DSP65 (2.5" BSP F)	340 à 950 l/min
